空挺ドラゴンズ

...A long time ago, there was a ship that encountered a big storm.

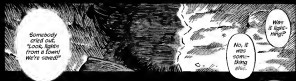

What's that?!

And that's when we saw a light through a gap in the clouds.

Heavens in by thunderclouds our compass broken...

We couldn't even tell north from south.

Somebody cried out, "Look, light! from a tower! We're saved!"

Was it lightning?

No, it was something else...

The shining dragon.

And then it appeared before our very eyes.

But then something strange happened.

You see, the light started slowly coming toward us.

We lost all track of time, and when we came to our senses...

We realized that we had slipped out of the storm.

It felt like some kind of magic spell had been cast upon our ship.

Almost like the shining dragon was dropping us along with it.

So, the shining dragon saved them...

Although right until he joined the crew, Giraud was completely convinced that his father's story was true.

Well, sailors have all sorts of similar superstitious tales.

It's just a silly legend.

Yeah, but it could really exist.

Why must you bring up these stories about my past...?

That was a long time ago!

Recipe

① Leave the fat in the container like this for 3-4 days at room temperature. A large amount of moisture will seep from the fat, but don't throw any of it away. ② After 3-4 days have passed, throw away the excess water, (scorched)
